About This Game

realMyst: Masterpiece Edition is a beautifully updated version of realMYST for today's Mac and Windows computers - celebrating the 20th anniversary of Myst! The models and textures have been reconstructed to provide an amazing graphical experience. The environments have been enhanced to provide dynamic water, weather, lighting, foliage, focus, and more. The interface has been redesigned to provide an enjoyable way to explore for both novices and gamers.

realMyst: Masterpiece Edition - this is not your father's Myst! It's been 20 years since Myst became your world, and there's never been a better time to revisit the Ages. This newly refreshed and rebuilt version of realMyst is all-things Myst, but amazingly more real. You can explore anywhere, unfettered, and in realtime! Pick your own path through the forest on Myst Island. Listen to the crickets as the sun sets in the Channelwood Age. Relax in the falling leaves in the Selenitic Age. Spin around for a full panoramic tour of SIRRUS' throne room. Seek shelter from the thunderstorm in Stoneship Age.

And If you've ever been overwhelmed by realtime 3D - too many controls or too much motion - realMyst has something for you! You have the option to play the game just like the original Myst - with a simple point and click! Point where you want to go - click the mouse and you move through the world seamlessly to the new location. As a tribute to Myst's 20th anniversary we've also added the original Myst images when you play in this Classic mode. Hold down the shift key and the original Myst image pops up, so you can see the difference and fondly remember that early Myst experience.

We've added plenty of new features to enhance and assist you on your journey. So whether you're visiting Myst for the first time or you want to remember the first time - there's never been a better reason to lose yourself and let the surrealistic Ages of realMyst become your world.

I enjoyed realMyst when it first came out. The problem with the one I downloaded is that I can't save my progress and I have to start all over again.. Runs like\u2665\u2665\u2665\u2665\u2665still to this day. I have no hope for this game. They patch it once every year or six months adding textures and what not that should have been there years ago. Game still looks half-baked. 1080ti. Still can't run it properly. Ancient garbage.
